as I have no official connection with Vydyasalas, I do not know what sort of Registers are maintained therein. The Local Fund forms serve their purpose well, & ought to serve (so far as I know) the purposes of the Vydyasalas — where out patients may be seen. In regard to the increase which attends out patient work it is always unsatisfactory that imprisonment be substituted in lieu of the Vydyasalas and as that in Tanjore where annual returns used to show 40000 odd cases, with one death! All an out patient return can show is the number of attendances & the diseases treated. Any statement as to "cures" or "deaths" should be rejected. Even the numbers treated have to be taken with care — everything depending on the honesty of the individual in charge — For there is no means of checking these figures that I know of — If the Vydyasala is anxious to make a good show he will, like the man in Tanjore show a mortality of 60 per mille — 950 on. Personally I think a plain sheet of paper duly filled up as here

The two forms received with the Mysore President's letter now under disposal, may be ordered to be adopted in all the Vydyasalas in the Province with an additional Col: opened as shewn in pencil for Thumb marks of the patients as suggested by the Senior Surgeon. There seems to be no harm in giving a description of the diseases treated, as the Vydyasalas are not supposed to adopt modern nomenclature.
